PROGRAMME STRUCTURE

Our Programme is a research-based degree that has two key components: coursework and thesis. Before undertaking research, students are required to pass two compulsory courses of 8 credits where they will acquire necessary research skills to undertake independent research.

Pre-requisite Courses (8 credits)

- SZRZ6014 Research Methodology
- SCLE6014 Academic Writing

Research students are strongly encouraged to attend specialist research training and seminars focussing on various aspects of the research process, such as developing a research proposal and statement of a research problem, writing a literature review, developing research instruments/instrumentation, identifying population and sample, conducting data collection, analysing qualitative and quantitative data, etc.
